Dear Class of 2020:

Congratulations on your acceptance into the National Security and Cyberspace Studies Program at the College of Information and Cyberspace (CIC), the most cutting-edge war college within the National Defense University (NDU). This program combines a senior-level Joint Professional Military Education program with a rigorous Master of Science in Government Information Leadership.

CIC is one of NDU's five colleges and is a trusted agent for cyberspace and information education. The College of Information and Cyberspace prepares its graduates to lead national security institutions and advance global security in the information environment.

Your selection to attend this joint education program at NDU recognizes your potential for significant future contributions to your service, agency, and nation. We know you will find the experience intellectually challenging, professional rewarding, and personally satisfying. In addition to the rigor of the academic program, you will also have the opportunity to interact with colleagues from across the U.S. government, international partners, and the joint force.
